Note: Concern Info refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegations made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.

**Concerns Received or Investigated Between
February 16, 2024 and March 15, 2025**

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60554	2/5/2025	2/26/2025	City of St. Joseph	Asbestos		KCRO	MU	Phone Conversation
Concerned Party:		Vicki Lipira						
Concern Info:		"A Local waste disposal service is reporting and intentional violation of asbestos buried in the St. Joseph MO landfill and intentional illegal disposal of this hazardous waste by our city leaders. This is quite concerning to citizens of our city. We would appreciate an investigation into this matter BEFORE it is allowed to happen and to contaminate our city and surrounding area!"						
Conclusions:		It appears that no asbestos disturbed at the time of the investigation.						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60623	2/11/2025	2/20/2025	Keith Thompson & Derek Cossi	Open Burning	Springfield /Greene	SWRO	JW	Communication In Person
Concerned Party:		Kathy Wimberley						
Concern Info:		See concern 6487 for previous findings. The new email concern is as follows: "Hello Jackson, you should have record of visiting with my parents last year or maybe in 2023. The address is 5263 N Crestwood Dr. Their neighbor to the south had a man living with him who was burning illegally. My parent's house is now empty because they have moved to assisted living, but we had a man working there this past week and he saw people burning mattresses. You had asked that I let you know if we had future problems. Before you talked to Mom and Dad, so since they are not there, feel free to call me or talk to Mom's neighbor to the north. Her name is Toni Fisher."						
Conclusions:		SharePoint #12407 I did not observe any violations during this investigation. No action is required.						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60644	2/18/2025	2/18/2025	DeMario Bradford	Other	Raytown /Jackson	KCRO	MC	Other
Concerned Party:		Anonymous						
Concern Info:		Via Webform - Submitted at 3:51 pm Monday, February 17, 2025 - Date of Incident or First Noticed: 02/14/2025 License Plate State - Indiana License Plate Number - 3502896						
		<p>This is the third complaint, although this is an ongoing problem since this summer, I've logged against this company who continues to use 62nd Street like it's a truck stop. I like how the police can respond to a parked car outside in the neighborhood, but nobody can do anything about a bunch of dummies using a public residential street like a Flying J truck stop? I'm sick & tired of hearing this truck idle constantly weekend after weekend... More importantly all Christmas holiday now. Like I've said in previous complaints not only is it a pollution issue it's an environmental noise issue too.</p> <p>When is it enough? Either these people are fronts for drug trafficking or at the very least have zero respect for the community or residents of Raytown.</p> <p>This is a refrigerated reefer trailer hooked to a rig that's been idling for 3 days in front of this property now... from midnight on Valentine's night, off & on all weekend as well. Like I said when is it enough for someone to take action against this company & at the very least this incompetent driver? Please I'm asking for some assistance in the matter as soon as possible.</p>						
Conclusions:		This concern was referred to the City of Raytown's codes enforcement. Codes enforcement made contact with the driver and instructed him to move the truck, which he did. Driver was advised that future violations will result in a citation and possible towing.						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60646	2/18/2025	2/18/2025	Kaw River and/or Canadian Pacific KC Southern RR	Hazardous Air Pollutant Release	Liberty /Clay	KCRO	MC	Email
Concerned Party:		Stephanie Harris						
Concern Info:		<p>From APCP Receptionist email: I am writing to bring to your attention a persistent issue regarding an idling locomotive that frequently sits on the tracks behind my residence in Liberty, MO. This situation has been ongoing for an extended period, with the locomotive often remaining idle for up to 48 hours or more. The continuous noise generated by the locomotive has become a significant nuisance, disrupting the peace and quiet of our neighborhood. Moreover, I am deeply concerned about the environmental impact of the locomotive's prolonged idling. The emissions released into the air during these periods are not only detrimental to our environment but also pose a potential health risk to residents. I am particularly worried about the impact on air quality and the potential harm caused by breathing in these fumes. As a concerned citizen, I kindly request that the Missouri Air Pollution Control Program investigate this matter and take appropriate action to address the issue. Your intervention would greatly improve the quality of life for residents in the affected area and contribute to a healthier environment. Thank you for your attention to this matter. I look forward to your prompt response.</p>						
Conclusions:		Concern involves emissions from a mobile source, which is regulated by EPA. Concern referred to EPA Region 7.

60696	2/25/2025	3/3/2025	Randy Kayl	Other	Edwards /Camden	SWRO	CR	Site Visit LOW
Concerned Party:		George Creamer, Fire Chief						
Concern Info:		Via Email - KCRO mailbox - Sent: Friday, February 21, 2025 5:47 PM - Subject: House burn in Edwards MO						
		The Northwest Fire Protection District responded to a structure fire this morning 02/21/25 at 1209. Upon arrival a gentleman was burning several piles of trash, tires and debris as well as a house. The house was older and vacant however had a roof and materials inside. The address is 409 Hillbilly Way, Edwards MO. The owners information is Randy Kayl 573-260-4033. Not sure how you would like to proceed but this gentleman has burnt fiberglass boats and campers before and has clearly not listened to us. If you have any questions please reach out.						
Conclusions:		See Sharepoint #12453 A Letter of Warning is being issued for the illegal disposal of solid waste. See the LOW for more details.						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60714	2/25/2025		Rocky Top Bar and Grill	Asbestos	Gravois Mills /Morgan			
Concerned Party:		Jeff						
Concern Info:		<p>Email from Chris Dudenhoeffer: "I received an environmental concern today from a citizen named Jeff (660-473-9166) who is comfortable with his name being connected with the concer. The concern citizen was informed that the Rocky Top Bar and Grill located at 16384 Highway O, Gravois Mills, MO, is planning on doing a renovation at the property starting February 25, 2025.</p> <p>On 1/9/2025, I got a call from a citizen. The citizen was concerned that a renovation could release any asbestos fibers and they wanted me to call the bar and give them information about asbestos inspections and the asbestos regulations. I called (573-372-3399) the barr and spoke with an individual there. I introduced myself and provided some information on asbestos inspections, renovations, friable vs non-friable, and notifications. Later on that day, the owner of the bar called me back and indicated that they were not planning on doing a renovation.</p> <p>However, the concern citizen was informed that they were going to start the renovation starting Tuesday, February 25, 2025. The concern citizen is concerned that they have not gotten an asbestos inspection report. The concern citizen is happy to answer any questions. I checked and we have not received a notification for the property."</p>						
Conclusions:		SharePoint #12470						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60716	2/24/2025	2/25/2025	Kemin Nutrisurance	Odor	Verona /Lawrence	SWRO	JW	Site Visit
Concerned Party:		Anonymous						
Concern Info:		Caller states that Kemin Nutrisurance is releasing strong "dog-food odors" at 5:30pm on a Monday night.						
Conclusions:		SharePoint #12467 I did not observe any violations during this investigation. No action is required.						
Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60720	2/25/2025	2/28/2025	Michelle Wald	Odor	Carterville /Jasper	SWRO	JW	Communication In Person
Concerned Party:		Katie Marsh						
Concern Info:		Katie Marsh, who lives in Prosperity, reported that C&L Grease is releasing strong odors around 4:15 p.m. on a Tuesday afternoon. Marsh reported that she has lived in the area for several years but has only begun smelling strong odors as of a year ago.						
Conclusions:		SharePoint #12477 I did not observe any violations during this investigation. No action is required.						
Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60725	2/26/2025	2/26/2025	Unknown	Other	/Bates	KCRO	MC	Email
Concerned Party:		Stacy Hankins						
Concern Info:		Via Email to KCRO in box-Sent: Tuesday, February 25, 2025 8:27 PM Just had a concern in my neighborhood. We have had a problem with somebody burning something in the evenings and nighttime here in Bates County MO it just smells horribly. We have no idea where it is coming from but the odor is so bad it fills up my house with the smell. I know if I contacted my town they wouldn't do anything because it is such a small town. I just didn't know what else to do or who to get ahold of. Thanks.						
Conclusions:		Information on Missouri's open burning regulation was provided to the concerned party. The concerned party did not provide any further information. As insufficient information to locate the concern was provided, no onsite investigation was conducted. If additional information is provided, the department will reinvestigate.						
Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60730	2/21/2025	2/25/2025	Sandstone Country Club	Asbestos	Warrensburg /Johnson	KCRO	JS	Phone Conversation
Concerned Party:		Jeff						
Concern Info:		A concerned citizen called and said he was informed that the Sandstone Country Club located at 7 NW Division Dr., Warrensburg, MO, was doing renovations. The department responded to a concern from the individual for this location in June 2024, for a possible renovation in a lower floor. The concerned citizen indicated that they are now renovating the kitchen and will be removing walls and the flooring. The renovation may have started in October 2024. The concerned citizen is concerned that an asbestos inspection has not been completed and there could be exposure for the public. The concerned citizen is happy to answer any questions. No notifications have been received for the property.						
Conclusions:		Project was already complete during the investigation. Wood flooring and wood paneling was removed, but it does not appear any suspect materials were significantly disturbed. Discussed with owner that an asbestos inspection needs to be done prior to renovations.						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60741	2/24/2025	2/25/2025	Gregory & Nancy English	Open Burning	Cameron /Clinton	KCRO	MC	Email
Concerned Party:		Kerry Steward						
Concern Info:		Via email, "Sunday February 23,2025 1:30 pm east of 1-35 around mile marker 50."						
		Email also included three photographs.						
Conclusions:		Smoke was from a structure fire. The responding fire department does not suspect intentional burning. Since this appears to be accidental, no further response is needed.						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60758	2/26/2025		Unknown	Animal Waste Odor	/Greene			
Concerned Party:		Matt Fender		Animal Feeding Operation				
Concern Info:		Caller states that there are a significant number of cattle packed into a very small area and is concerned about potential runoff to the nearby Little Pomme de Terre River located to the West and South of the property. Caller also states that the odor from the confined livestock is unbearable.						
Conclusions:		SharePoint #12498						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60770	2/21/2025	2/21/2025	Schaefer Mortuary Service	Hazardous Air Pollutant Release		SLRO	RA	
Concerned Party:		Robert Brundage						
Concern Info:		We received an email from Robert Brundage concern that a crematorium was operating without an air permit.						
Conclusions:		I visited the site and there is no building at the location. The building pad appears new so they may be building a new crematorium in the future.						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60771	2/27/2025	2/27/2025	Pre-Coat Metals	Other		SLRO	JC	
Concerned Party:		Kirsten Jones						
Concern Info:		Recieved an environmental concern from the St. Louis County Department of Public Health. The CP states"Precoat Metals has done something in the past six months and before they would be load once in a while, now we are woken up to the house vibrating and a loud noise coming from Precoat and it goes on all day long. Our house is getting cracks from the vibration. Our kids are woken up from the noise and vibration. This morning is was at 6am and goes on all day long. It causing my whole family anxiety from the noise pollution and constant vibrations. "						
Conclusions:		I spoke to the Precoat Metals's EHS and they were not aware of any loud noises or vibrations. MDNR does not have noise regulation that we can enforce. The City of St. Louis will follow up with the noise concern as they do have a noise ordinance.						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60779	2/28/2025	3/3/2025	KER Enterprise LLC	Other	Mexico /Audrain	NERO	BH	
Concerned Party:		Anonymous						
Concern Info:		<p>Caller reports that Kyle Roth of KER Enterprise LLC is doing diesel delete on trucks, tractors, and heavy equipment at 1520 Hwy ZZ.</p> <p>Note: Secretary of State records show 1067 Hwy ZZ as the registered agent address</p>						
Conclusions:		This concern has been referred via Shelby Miller to the EPA						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60788	3/3/2025	3/14/2025	Unknown	Land Application Odor	Carterville /Jasper	SWRO	DH	Phone Conversation
Concerned Party:		Anonymous						
Concern Info:		C&L Grease and Wastewater Services, LLC was improperly land applying sewage at 1205 East Fifth Street, Carterville, MO. They stated that the smell is overwhelming and that it has been getting worse. They also stated C&L Grease and Wastewater Services, LLC is land applying the waste early in the morning, starting around two and three. The responsible party does have an operating permit, MOG822251.						
Conclusions:		SharePoint #12545 No findings, no action taken.						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60789	3/3/2025		Montina Hartley	Animal Waste Animal Feeding Odor	Fair Grove /Greene			
Concerned Party:		Anonymous						
Concern Info:		CAFO odors and wastewater runoff near Little Pomme de Terre at Harley's Place. Concern states the farm was established without public notice.						
Conclusions:		SharePoint #12552						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60791	3/3/2025		Montina Hartley	Animal Feeding Operation Animal Waste Odor	Fair Grove /Greene

Concern Info:		CAFO - wastewater runoff and odors						
Conclusions:		SharePoint #12561						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60836	2/26/2025	2/26/2025	unknown	Odor	Marceline /Linn	NERO	JH	Site Visit
Concerned Party:		Brad Miller						
Concern Info:		Email states, "Complainant concerned with chemical and sewer odor allegedly sourced from resting water in ditch next to their property. The odor has reportedly caused ill symptoms and discomfort. MoDNR NERO and City have been contacted since early 2023 and conducted several follow up actions on behalf of complainant's concerns. Complainant called spill line last week and NERO responded 2/21/25 including collection of water samples from the ditch. No violations were found and the water in the ditch appeared to be normal run-off from snow melt."						
Conclusions:		No violations observed at the time of the investigation.						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60839	3/5/2025	3/5/2025	KMS Enterprises, Autumn Romero, Manager	Asbestos	Kansas City /Jackson	KCRO	MC	Email
Concerned Party:		Autumn Romero						
Concern Info:		Via Webform - Inquiry/Question - Submitted at 2:37 pm Wednesday, March 5, 2025						
		Hi, we have a rental property that apparently has asbestos in the attic. I am wondering if we need to remove it or not.						
Conclusions:		I provided information to the rental agency.						
Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60841	2/26/2025	2/27/2025	Jack and Linda Nash	Other	Williamsville /Butler	SERO	BC	Letter
Concerned Party:		Anonymous						
Concern Info:		CP States: Jack and Linda Nash are burning vinyl siding and trash at their residence. Stated that they were sorting trash hauled in from another location at residence.						
Conclusions:		A letter was sent to Jack Nash on March 5, 2025, in an attempt to make contact and conduct a site visit. The department will continue to monitor and update this concern as information becomes available.						
Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60855	3/6/2025	3/10/2025	Jose Garcia-Hernandez	Open Burning	/Lawrence	SWRO	CR	Phone Conversation
Concerned Party:		Anonymous						
Concern Info:		Responsibe party is bringing in trailers of roofing materials and siding and burning these materials on the back side of the property. Typically burn at night with bad fumes lingering. Burns 3-4 times per week. Monett fire department has been to the property previously.						
Conclusions:		SharePoint #12602 Open burning information was provided for the responsible party and burning is no longer occurring. The burned material was primarily vegetative waste and household trash and construction/demolition waste is transported to a landfill. No further action required.						
Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60856	3/6/2025	3/12/2025	Michelle Wald	Odor	Carterville /Jasper	SWRO	JW	Site Visit
Concerned Party:		Callie Gourley						
Concern Info:		Caller states that "odors were terrible by the storage facility this morning at 7:30am while I was driving to work." The caller's husband owns the storage facility and has also called in the past about odors.						
Conclusions:		SharePoint #12597 I did not observe any violations during this investigation. No action is required.						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60863	3/7/2025	3/11/2025	James Morgan	Open Burning	Walnut Shade /Taney	SWRO	JW	Communication In Person
Concerned Party:		Ken Bash						
Concern Info:		See concern #11309, #11677, and #11884. Ken Bash left a voicemail stating that his neighbor, James Morgan, is still burning and "has new techniques that he's using" for his "bonfires," so Bash is requesting that the department follow up and ask Morgan to stop illegal burning.						
Conclusions:		SharePoint #12622 I did not observe any violations during this investigation. No action is required.						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60865	3/7/2025		Steve Eoff	Open Burning	Nixa /Christian	SWRO	JW	
Concerned Party:		Jeffrey Owens (Asst. Chief, Ozark FPD)						
Concern Info:		Jeffrey Owens, Assistant Chief for Ozark Fire Protection District, emailed photos and a fire report (see attached) to the department on 3/7/2025 that details an incident in which a property owner burned "construction and home improvement products" equating to "50x30x10 feet in size." The fire department extinguished the fire and informed the landowner, Steve Eoff, that DNR would respond to the issue as well. The burning occurred around 5pm on 3/4/2025.						
Conclusions:		SharePoint #12621						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60877	2/24/2025	2/25/2025	Lowell Wayne Wyatt	Animal Feeding Operation Odor	Gilman City /Harrison	NERO	JS	Letter
Concerned Party:		Dennis McCrary						
Concern Info:		Within the city limits of Gilman City, concerned party has a neighbor with six acres and approximately 40 head of cattle. Gilman City gave the neighbor until February 14, 2025, to move the cattle but he has not done so.						
Conclusions:		The Missouri Clean Water Law and Clean Water Commission Regulations do not require a Missouri State Operating Permit in this circumstance, and therefore there are also no enforceable buffer requirements. The Missouri Air Conservation Commission Regulation 10 CSR 10-6.165, Restriction of Emission of Odors states that this rule shall not apply to the emission of odorous matter from the raising and harvesting of crops nor from the feeding, breeding, and management of livestock or domestic animals or fowl with the exception of Class IA concentrated animal feeding operations. A letter will be sent to the concerned party outlining this.

60892	3/11/2025	3/19/2025	St. Joseph Landfill	Odor	St. Joseph /Buchanan	KCRO	DS	Phone Conversation
Concerned Party:		Susie Hanway						
Concern Info:		Concerned party reports odor so bad from the landfill that they had to go back inside and it was 4:00 pm on March 11, 2025. CP believes that it may be the warm weather and the odors are starting back up again.						
Conclusions:		No offsite odors were observed at the time of investigation. Landfill is considering using a deodorizer this summer.						

Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60898	3/12/2025	3/13/2025	Missouri Department of Natural Resources	Other	Kansas City /Platte	KCRO	MC	Other
Concerned Party:		Anonymous						
Concern Info:		Via Webform - Inquiry/Question - Submitted at 8:48 am Wednesday, March 12, 2025						
		Why are there no air monitors measuring pollutants near the KCI airport? In addition, within a 3-mile radius, this area includes the Martin Marrietta Mine, Superior Bowen Asphalt Company, KCI Industrial Park (with diesel trucks), Todd Creek Wastewater Treatment plant, and two major interstates (435 and I-29). Most states have air monitors near airports. This feels like an area of severe neglect. Platte County residents are overly polluted in this area and need MDNR and EPA air protections. It should be mandatory to place an air monitor in this area to measure particulates (not just ozone).						
Conclusions:		The following information was provided by the department's Air Quality Analysis Section: The Missouri Department of Natural Resources' Air Pollution Control Program is required to perform a Monitoring Network Assessment and submit the assessment along with a Monitoring Network Plan by July 1, 2025. The assessment is required at least every five years. The purpose of the assessment is to determine whether our network is sufficient in meeting or exceeding regulatory requirements, whether monitors are redundant, whether more monitors are needed, and more. The work on the assessment/plan is underway. There is a regulatory requirement for at least a 30-day public notice for the plan. The assessment will be posted for public notice along with the plan.

Concern Info:		I am writing to report a significant trash dump and junk yard developing on Lots 51-60 in McBaine, Missouri, near the McBaine Katy Trail trailhead and adjacent to the Columbia Water Treatment Plant. The dumping appears to span multiple lots under various owners. Records indicate that a major landowner in the area is SAPP MARVIN E & ROBERT & JANE SAPP FAMILY LIV TRUST (Address: 5216 HIGHLANDS PKWY, care of B. Jane Sapp).						
Conclusions:		In violation of the open burning regulations. Require a clean-up of waste remaining onsite and returning the air pollution response letter. Issue a UF.

Concern Info:		We live on Northwood Drive, there are 6 homes on our gravel road, across our gravel road is a strip of wooded area with MRA Construction backing up to the woods on the opposite side of Northwood as his business is on Rock Ridge. They are dumping garbage and leftover construction materials down into the woods, between the back of MRA Construction into the woods that the homes on Northwood faces. I do not know if the construction materials are hazardous or not.						
Conclusions:		Waste was blown over embankment from recent heavy winds. Contacted property owner and discussed management of solid wastes. Observed a couple of burn barrels on site and explained that waste from a business may not be burned.

Concerned Party:		Kristine Bunch						
Concern Info:		<p>Email forwarded from Liam Hazen: March 12th, 2025 Subject: Urgent Concern – Unregulated Dirt Removal & Potential Asbestos Dirt Contamination in Smithville, MO from Water leak on old hospital property that caused a sinkhole</p> <p>Dear Liam Hazen,</p> <p>I am writing to formally report a concerning incident that occurred today, March 12, 2025, in Smithville, Missouri, involving the removal and transport of dirt from 110 W Main Street to the Eagle Ridge Development. This dirt, which has been exposed to asbestos for many years, was transported without proper containment, posing a risk to public health and the environment.</p> <p>Key issues observed:</p> <ul style="list-style-type: none"> • Overfilled and uncovered trucks were transporting dirt beyond capacity, potentially causing hazardous material to be dispersed onto city roads and into the air. • No visible mitigation efforts (such as dust suppression or protective covers) were in place. • The source location (110 W Main) had a previous known water leak from an asbestos demolition site, which contributed to sinkhole formation affecting nearby infrastructure. • The City of Smithville has not enforced oversight of this site, and MODOT has deferred responsibility to the city. • Known water leak, see City Administrator's Affidavit in City of Smithville Judgement <p>Residents are concerned about the risk of asbestos exposure, contamination of nearby water and sewer lines, and further land instability due to past infrastructure failures at this location. Is the dirt being tested and is the dirt contaminated the dirt in the new neighborhood? Did it get in Smithville's water?</p> <p>Additionally, photo and video evidence of today's dirt removal can be found on the Smithville News Facebook Page. I urge the DNR to investigate this site, ensure compliance with environmental regulations, and hold the responsible parties accountable.</p> <p>Please confirm receipt of this complaint and advise on any next steps the community should take to ensure public safety.</p>						
Conclusions:		<p>There was a prior regulated demolition (D12286) at 110 West Main Street which was referred to enforcement for failing to inspect a house that was part of the demolition prior to beginning demolition. The rest of the house demolition and parts of a former hospital building on the property were done as a wet demolition due to the presence of asbestos-containing materials which could not be removed prior to demolition. On 3/13/25, Michael Cunningham of the Air Unit, contacted the Asbestos Unit to find out if any soil sampling of the site was required as part of the enforcement action. The Asbestos Unit confirmed that no soil sampling was being required as it was not standard practice for the Department in a case like this.</p> <p>It was also noted that the covering of trucks is not regulated by the Department of Natural Resources.</p> <p>The afternoon of 3/13/25, Chris Kerr and I arrived at the site of the Eagle Ridge Development. A portion of the site near a small detention pond was being graded, northeast of the intersection of Woodland Street and Walker Street. No fugitive dust or other issues were observed.</p> <p>We then proceeded to 110 West Main Street. Construction fencing surrounded the property. There was some trackout near the entrance, located on the north side of the site, and along Church Street. Vehicles passing on Church Street were kicking up small clouds of dust from the trackout. No dirt appeared to be leaving the site from any other portion of the site. We talked briefly with the loader operator on site, who said he was working for Lepee Construction. He called the owner, Carlos Lepee, who is also one of the owners of 110 Smithville, LLC, and received permission for us to access the site. The site was almost completely bare soil and has been leveled out, including a hill that had been on the northwestern portion of the site. The dirt appeared moist, and no fugitive dust was observed on the site.</p> <p>A truck had arrived while we were present and entered the site as we left. We briefly watched the loading of the truck from off site and did not observe any fugitive dust.</p> <p>On 3/14/25, I consulted with personnel in the Clean Water Unit and Water Permits Unit about the sites. The Eagle Bay Development does have a Land Disturbance Permit for the work there. Based on parcel size information from the Clay County Assessor GIS website, the disturbed area of the 110 West Main Street site appears to be just under an acre in size and therefore would not require a Land Disturbance Permit. The city of Smithville has an MS4 program and therefore, if the site does not require a permit, any land disturbance issues would be handled by the city.</p>

60937	3/14/2025	3/14/2025	APAC-Kansas, Inc. - Harrisonville Quarry	Fugitive Particulate Matter	Harrisonville /Cass	KCRO	CK	Phone Conversation
Concerned Party:		Anonymous						
Concern Info:		Via Webform - Submitted at 12:59 pm Friday, March 14, 2025 - Date of Incident or First Noticed: 03/14/25						
Conclusions:		It is apparent that the dust control at the APAC Quarry near Harrisonville is non existent today 3/14/2025. With the high winds the Quarry is not watering sufficiently to prevent a haboob from occurring. Please consider this as a complaint from nearby residents that they are on violation of a clean air statute. We would appreciate a call to them to alert them of their causing respiratory issues for their neighbors. Due to multiple concerns and the current high winds, it was determined a faster response could be accomplished by phone rather than a site visit. APAC Quarry was responsive to my call about the dust concerns and immediately shut down the plant during the high winds. This was confirmed by one of the concerned parties.

60944	3/14/2025	3/19/2025	Troy McPherson	Open Burning	Nixa /Christian	SWRO	BD	Site Visit
Concerned Party:		Jimmy Smithwick						
Concern Info:		From email submitted: Concerned party states they are doing a house remodel at 1438 and have essentially gutted their house and placed the debris in a burn pile in their yard. He stated yesterday they placed a bunch of brush on top of it and he is concerned they will light it off when the weather allows. He states the brush pile is only 80' from his fence and when I look at the GIS map it is only a 2 acre lot so even burning brush with the appropriate distance would be tough. He is concerned about any runoff affecting his pond if they do burn it, which would affect his livestock.						
Conclusions:		SharePoint #12713 No violation of 10 CSR 10-6.045 has occurred yet. Compliance assistance was provided and fact sheets were left with the occupant to inform them that they cannot burn demolition waste.						
Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
60955	2/18/2025	2/18/2025	Eric Mosley	Odor	/Franklin	SLRO	RB	
Concerned Party:		Eric Mosley						
Concern Info:		Kevin Virgin (Homeland Security) received a call, from Eric Mosley. Mosley stated that he has been smelling a "toxic gas smell." He stated that DNR staff have come to check on it and that he did not receive any follow up info. Mosley states that his neighbors have complained of the smell as well.						
Conclusions:		3/7/25 On my site visit it was sunny, clear and very windy. I sat at the site for 30 minutes to see if I could smell any odors. No odors were present. During the time I accepted this concern and today I communicated with the CP that if we could find a source of the odor , it would be hard to find any violations. Again, it was determined and described by the CP that it may be a mobile source of the odor, so no futher investigation should be conducted here until we can determine that it is not a mobile source.

Concerned Party:	Anonymous							
Concern Info:	<p>MSC: Anonymous caller wanted to submit concern for two issues they are experiencing involving odors</p> <p>1. Diesel Truck Traffic odors: I explained to the CP that we do not investigate odor concerns from mobile sources. I directed them to try EPA region 7 to see if this would be something they would investigate.</p> <p>2. Chemical and Smoke smell coming for unknown source: The odor is stated to burn the CP's nose and throat and can be detected at various times of day including early morning, night, and the afternoon. The odors have been occurring for roughly a week. 1/4th a mile down Gamel Cemetery Road is the area the odor has been experienced. I explained that to issue an odor violation the investigator will have to determine a source of the odor, and conduct nasal ranger readings that indicate violation with state of Missouri regulations. Since the caller wished to remain anonymous, I explained that they could reach out to our office for follow-up on the investigation.</p> <p>Outside Parties Contacted: The caller has been in communication with the City of Festus and indicated dissatisfaction with their actions regarding their concerns.</p>							
Conclusions:	Site visit conducted. No violations of 10 CSR 10-6.165 were noted.

60959	3/4/2025	3/4/2025		Open Burning	/Jefferson	SLRO	LZ	
Concerned Party:	Mick Fischer							
Concern Info:	We recieved an open burning concern from the Fire Chief at Cedar Hill Fire Protection District. The concern was made over the DNR Website. The CP states "I am the Fire Chief at Cedar Hill Fire Protection District. On March 3rd, 2025 we were dispatched to 8444 Industrial Drive for a report of an illegal burn. Upon arrival we found a large pile of household refuse on fire. We extinguished the fire. Two employees of the owner of the property stated that they are cleaning out vacant homes and dumping the contents there to burn. They were advised of DNR burning regulations and the fines that could be imposed if this continues. The incident was also reported to Jefferson County Code Enforcement. "							
Conclusions:	No active open burning on site at the time of my visit. There was a pile of residue of past open burning, but we could not make out the contents.

Concerned Party:		Anonymous						
Concern Info:		The CP called expressing concerns about their neighbor burning trash (including electronics and tires) and the air pollution from that has gotten worse since the high winds started last week. They haven't gone to the neighbors to see what they're burning, but the CP burns their own trash and they can tell by the smell and dark color of the smoke that its not just household trash being burned. The CP is fairly certain there are tires in the burn pile. They only burn at night. The CP was contacted last week about this issue from another concern not filed by them. They couldn't remember the name of who they spoke to. I believe the concern ID is 12510.						
Conclusions:		SharePoint #12785 Open burning, operating an illegal landfill and illegal disposal of solid waste						
Concern No.	Date Received	Investigation Date	Suspected Source Owner/Operator	Concern Type	City/County	Region	Inspector Initials	Final Action
61016	3/14/2025	3/18/2025	Rusty Nails Lawn Care	Open Burning	California /Moniteau	NERO	SB	Phone Conversation
Concerned Party:		Anonymous						
Concern Info:		Email states, "I have filed a complaint in the past about a property owner named Tyler Blank who owns a large dump site in California, MO. I believe he has been instructed by your department to clean that property up. Yesterday afternoon, I noticed a very large black smoke plume coming from that property. Curious if he was burning debris from the clean-up site, I drove by there today and in fact was able to observe from the road a very large pile of still burning debris. I took some pictures and will attach them to this complaint if there is a feature below to do so. A truck for "Rusty Nails Lawncare" was also observed at the site at the time of the burning of debris. Rusty Nails Lawncare lists their address as 601 Ryan Ave, California, MO on their Facebook page."						
Conclusions:		At the time of the investigation, no violation of the open burning rule. Exempt burning of brush had occurred.

Concerned Party:		Anonymous						
Concern Info:		<p>We recieved a dust concern from the DNR website. The CP states "As a concerned resident and stakeholder in this community, I want to bring attention to a serious environmental and public health issue. My home is located approximately 1.5 miles from the Defiance Rock Quarry, and on a weekly basis, the dust emissions are so severe that visibility is reduced to less than half a mile. This dust settles on homes, vehicles, trees, and grass, creating a persistent layer of rock particles.</p> <p>More importantly, I am deeply concerned about the potential health risks for my family and neighbors. Every time we step outside, we are likely inhaling these airborne particles, which could have long-term respiratory consequences.</p> <p>I urge the appropriate authorities and quarry management to take immediate action to mitigate this issue. What measures can be implemented to significantly reduce dust emissions and ensure the health and safety of the surrounding community? This is not just an environmental concern it is a matter of public well-being."</p>						
Conclusions:		A site visit was performed on 3/18/25 and No observable violations were found.

Concern Info:		hristopher Dudenhoeffer sent an email to SERO stating that he received an environmental concern letter in the mail today. It is for Fort Leonard Training Barracks Building 730 & 731. There is current notified asbestos abatement notification occourring at the location. The notification number is A8875-2025. CP states that they are writing to us today to ask for our involvement on this project that he is on. The asbestos survey is trash and did not inspect items that are to be impacted during their renovation work. The ceiling texture and flooring is asbestos and they survey states was not asbestos. There is also asbestos debris in the crawlspace that we are crawling all over in that survey does not include. CP is not sure they even inspected the right Barrack Buildings.						
Conclusions:		An asbestos inspection was conducted and the site was determined to be in compliance at the time of the inspection.

Concern Info:		Email states, "Our location is 6794 State Road O in Fulton MO. A farmer behind our property has been using what smells like raw sewage on his property for several years, however, this year I've had enough and decided to report. Besides the absolutely DISGUSTING smell drifting for miles making it difficult to be outdoors, his land abuts Stinson Creek, raising concerns about water pollution. The smell dissipates after a rainstorm but he reapplies frequently during the growing season. If the whatever product he's using isn't harmful to the environment, it should at least be processed to eliminate the odor."						
Conclusions:		Agricultural land application is exempt from the Missouri Odor regulations. No violations were alleged or documented during the investigation.

Concern Info:		CP States: Lives near Frohna and New Wells area along the Perry/Cape Girardeau county line. Someone is burning and it is producing so much smoke that they cannot stand to go outside. The smoke becomes so thick that it makes visibility difficult. This has been an issue for several months but seems to be much worse lately. The smoke is affecting the air quality and causing concerns for the CP.						
Conclusions:		Results from the investigation are inconclusive as the department requires more details to be able to fully investigate the concern.
